OWA	Office 365

## Downloading

Please refer to the following link on the Exclaimer website:

<http://www.exclaimer.com/signature-manager-office-365-edition/download>

## Installing

Download and run the 'Signature Manager Office 365 Edition 1.0.4' installation file 'setup.exe'. An MSI is available from support by contacting [support@exclaimer.com](mailto:support@exclaimer.com).

## Uninstalling

Uninstall can be achieved via the 'setup.exe' or MSI for the currently installed version of 'Signature Manager Office 365 Edition' or via 'Programs and Features' in Windows 2008 R2, Windows 2012, Windows Vista, Windows 7 and Windows 8.

The configuration files are located in the following folder and will not be removed as part of the uninstall process:

Operating System	File Location
Windows Server 2003 x86 and x64 Windows Server 2003 R2 x86 and x64 Windows Small Business Server 2003 Windows XP x86 and x64	\\Documents and Settings\\All Users\\Application Data\\Exclaimer Ltd\\Signature Manager Office 365 Edition
Windows Server 2008 x86 and x64 Windows Server 2008 R2 Windows Server 2012 Windows Server 2012 R2 Windows Small Business Server 2008 Windows Small Business Server 2011 Windows Vista x86 and x64 Windows 7 x86 and x64 Windows 8 x86 and x64	\\ProgramData\\Exclaimer Ltd\\Signature Manager Office 365 Edition

The uninstall process will not lose any of your configuration or settings. However as a backup precaution you may wish to export your configuration.

### Export Steps

1. Open the Exclaimer Console
2. Select the 'Exclaimer' node
3. Open the 'Action' menu
4. Select 'Export Configuration...'
5. Select a location and filename for the export
6. Press Save

This will export all your settings including all your templates and licensing data.

### Fixed Issues

- Connector service had a memory leak.
- "CountryOrRegion" user attribute was not aggregated from Office 365. This caused no data to be displayed for the field in a users' signature.
- On-premises Active Directory user data was used when changing from "Some or all of my user data is stored in an on-premises Active Directory" to "All of my user data is stored in Office 365".

### Enhancements

- Improvements made to Outlook Signature Update Agent connection methods.
- Secondary user data is no longer aggregated by default, decreasing the amount of time for aggregation to complete.

If any of the Assistant or Manager User data fields are used in your templates ({Assistant Email}, {Assistant Telephone}, {Assistant Display name}, {Manager Email}, {Manager Telephone} and {Manager Display name}) the data for these fields will no longer be aggregated by default. If you wish to aggregate the data for these fields, the following registry key is required on the machine where Signature Manager Office 365 Edition is installed:

Location and Name	Type	Value
HKLM\SOFTWARE\Wow6432Node\Exclaimer Ltd\Alternate Data Source\Settings\Office365GetManagerAssistant ( for 64-bit machines)	DWORD	1
HKLM\SOFTWARE\Exclaimer Ltd\Alternate Data Source\Settings\Office365GetManagerAssistant (for 32-bit machines)
